David, Campus Administrator

2020 will be a year that many of us will never forget.

It was a year of loss for many, a year of despair, and a year of immense awe.

This week my 16 year old son jokingly said "Dad, I'm tired of 2020 it has been the longest 5 years of my life and I'm still not allowed to borrow the car." Which got me to thinking despite being a typical 365 day year same as every other year for many of us 2020 was full of twist and turns.

In the healthcare world words like PPE, contact tracing, and pandemic have dominated our lives. Face mask have become common place and seeing things shut down have become the norm.

In the new year let us all be hopeful for better things to come. Let us hope the vaccines allow us to return to a sense of normalcy, break free of the isolation many of us feel.

I hope 2021 is a blessing to all who read this, and I cannot express how I look forward to meeting some of you in the upcoming year!!

Stay warm, stay safe and Shalom (Peace) from my family to yours.

Speak Up About Your Mental Health.
We Are Experiencing Tough Times!

About 1 in 5 older adults suffer from depression or anxiety. Some signs of depression are ongoing feelings of sadness, fatigue, changes in appetite, or losing the desire to do things that you enjoy. You may have difficulty sleeping, feel worried or irritable, or a desire to isolate yourself. Talk those who support you and your healthcare provider if you're struggling or experiencing any of these signs for more than two weeks.

Kitchen Korner
Shawn, Culinary Director

Hello All,

As we head into the new year, we will continue to monitor county positivity rates and look at opening our dining room as soon as we safely can. Until then we will continue serving the way we have been. You will also start to see a few more new menu items, we have had good response so far and appreciate your feedback.

I would like to thank all of you for your continued patience as we navigate our way through all of this!
